

Net and Field Committee:

- Chair-set date to put on nets and take down nets for each season
- Check supplies for nets—cable ties- if needed we get them from Hardware Hank
- Ladders- 2 in the Soccer Building to use- ask helpers to bring one along makes it go faster
- Duct tape is the center –top of the net
- Check the nets for holes that need to be repaired and inform the Board if new nets need to be purchased-(Sator Soccer, Score, Fold N Goal) there are catalogs in Equipment binder and you can also go online.
- When ordering Nets be sure to order nets with Depth (ex. U12 field-8x24x4x8) would be the size , and also order at least 3mm or 4mm
- Check the nets throughout the season, cable ties do come loose and also check the fields for any debris or problems
- Let the City(Scott Sjurson) know when the season starts and ends for painting fields-the city will paint if you ask them-don't just assume they will do it or that it is their job-they do it as a courtesy for Soccer
- Check the Corner Field Flags- if orange triangles are faded replace them from equipment tote.
- Put out spectator and parent wires these can be put out and left out if they are easily movable for the city to mow.
- Ask the city to put out player benches—
